

HOW TO GET YOUR PHOTO EXHIBIT READY

Exhibit Ready Instructions

All photographs are to be mounted on a rigid board for backing reinforcement and matted, up to 11" x 14". Matting should be adequately secured to the backing so as not to come apart when hanging.

Affix this entry form to the back of your entry before you drop it off at the Schack

Only white, off-white or black matting may be used.

Put an ↑ on the back indicating the top of the picture.

If entered in a sleeve, the picture may be taken out when the exhibit is hung.

*Only work submitted following these guidelines will be juried.
